

TBCH

DISINFECTANT, SANITIZER, BACTERICIDE, SLIMICIDE, AND ALGICIDE

Description	<p>TBCH is useful as a Disinfectant, Sanitizer, Bactericide, Slimicide, and Algicide in re-circulating cooling water systems and once-through cooling water and wastewater treatment systems and for control of microbial slimes in air conditioners, dehumidifiers, and evaporative coolers. When used as directed, TBCH effectively controls algal, fungal, and bacterial slimes in industrial and commercial cooling towers, cooling ponds, influent water systems including flow through filters, heat exchangers, industrial water scrubbing systems, brewery pasteurizers, and industrial air washers equipped with mist eliminators. TBCH also controls algal, bacterial, and fungal slimes in open or closed cycle, fresh or salt water, once-through cooling systems. Treat cooling water with TBCH at the system intake, or other critical areas where mixing is uniform. TBCH is useful in controlling microbial slimes in evaporative coolers and in areas where water collects such as commercial air conditioner and dehumidifier basins or drip pans. Place TBCH in the basin or drip pan close to the outlet drain. Use on or more tablets as necessary to maintain the cleanliness of the system.</p>
FDA Compliance	Not to be used in food contact.
Product Data	<p>DENSITY: 1.9 g/cm³ SOLUBILITY IN WATER: Very slightly soluble APPEARANCE AND ODOR: Off White solid tablet, slight odor.</p>
Dosage	Since TBCH is a specialty product, proper dosage will be determined by a Chem-Tech representative after a thorough analysis of the water system. Dosage rates will vary based on individual system needs.
Safety & Handling	Please refer to the MSDS before using or handling any product. In case of emergency contact Chem-Tel 24 hours a day at 1-800-255-3924.
Storage	Product should be protected from extremes in temperature. Store between 50-104 degrees F. Keep this and all chemicals away from flames and do not smoke or weld near container. PROTECT THIS PRODUCT FROM FREEZING
